Discover. Delight. Unwind.

Climate Change Conferences

On Star Island, off the coast of Portsmouth, NH

Natural History Week

June 17 to June 24, 2017

Oh Sacred Earth Now Wounded

Now more than ever we must face the most daunting of issues: holding on to humanity and the climate crisis. We need to honor all living beings and work to heal the earth. Leading our conference are environmental activists, Tim DeChristopher, co-founder of Peaceful Uprising, and singer/song writer, Bryan Cahall. Tim and Brian emphasize the spiritual approach to the climate movement. Their unique concept of words and music is a transformational experience.

Bread & Puppet

Renowned theatrical group, Bread and Puppet Theater will be performing on island during Natural History Week!

Institute on Religion in an Age of Science

June 24 to July 1, 2017

The "Wicked Problem" of Climate Change: What is it Doing to us, and for us?

Climate change is a "wicked problem" with overlapping causes and consequences in economic, ecological, ethical, and technological realms. As climate change continues to alter our planet, how can we use this monumental change as an opportunity for societal and spiritual transformation? Join us for a week of workshops lead by esteemed speakers and hearty discussion on the next chapters of our changing planet.
