

Calling all Star Gathering UCC1 Artists!

We are looking for the next great button design for Star Gathering 1! A few of us were looking back over years of amazing button designs and decided it was time for something new and innovative. So we devised this contest to see what our shoalers could come up with for the 2013 button design. Our plan is to collect designs over the next few months, and then have the designs submitted voted on by our conferees.

Rules for entry...

- There is no age requirement. We want to see artwork from anyone!
- Be adventurous, realistic, abstract – just make sure it captures what you love about Star Island.
- Please send a PDF or JPEG file. If the design is in color, please send a color version.
- Keep in mind that it must allow room for a full name and the conference name.
- The dimensions of the button are a circle 2 inches in diameter. Keep in mind how the design will look on that scale.
- You can either incorporate ‘Star Gathering UCC1 2013’ in to your design, or we will add it to the design if your design is selected.

The deadline for entry is May 25th. Please email your submission and any questions to sg1_reg@yahoo.com.

If you want to know who wins, be sure to attend the conference this year! You will find out the winner when you pick up your nametag on the dock in Portsmouth! Good luck!

** Thank you to Myra Miner for an amazing look back at a selection of button designs going WAY back in our conference history! Let's carry on the tradition!
